miracle products for everyday living

## The Ultimate Toothpaste

**Nature provides an answer to a clean and healthy mouth.** Amazing Bee Propolis brings you Holocuren's Propolis Toothpaste to clean teeth, freshen breath and to protect from inflammation. This toothpaste is a proven protective product for gum care with an effective combination for cleaning teeth.

The flavonoid properties of bee propolis have an *anti-oxidant, anti-bacterial, anti-fungal, anti-viral and anti-inflammatory* chemical composition, a powerful natural wonder drug that attacks only harmful microbes and selectively leaves alone the mouth's necessary bacteria. There is also evidence that the propolis compounds are powerful against anti-biotic resistant bacteria for total effectiveness. All of these properties work together in the Holocuren Propolis Toothpaste to give you a truly fresh, clean, healthy mouth.

Propolis is a naturopathic substance recently praised for its biologically active wound-healing properties. Having been in existence for 125 million years, this extremely bio-diverse natural substance produced by bees has been used by healers in ancient cultures for centuries. Its efficacy cannot be denied. Nutrient enriched propolis inhibits the development of unwanted microorganisms by immobilizing the infectious bacteria.

Propolis is beyond explanation

*When brushing regularly with Holocuren Propolis Toothpaste, it's important anti-inflammatory effects can be a successful tool in the decrease of known causes of Alzheimer's and heart diseases.*

Mimi Guarneri, M.D.  
Cardiologist  
Director, Scripps Center for Integrative Medicine

Experience it and you'll see why

*Like vitamin A, bee propolis has a tonifying and healing effect upon the important epithelial tissue of your body."*

Steve Schechter, N.D.  
Director, National Healing Institute  
Encinitas, California

*"Research evaluation of [propolis] contents reveals that it is more than a miracle antibiotic and healer..."*
